

## MOUNT VERNON BARGE SERVICE

On Thursday, March 5, Mount Vernon Barge Service lowered a new 34-foot-long fleet repair boat, which was built in Scully's Boat Works in Morgan City, La. The boat is equipped with two 250 HP Yamaha outboards and travels at 48 mph. The boat will carry a welding machine, torch, pumps and repair supplies and will shingle barges between Uniontown, Ky. and Evansville. The boat's name "Sidney Rene," was named after the 4-year-old daughter of Don and Julie Miller and granddaughter of Terry McMurtry and Mary Anderson.
